Contact Name		Phone #		E-mail			
<p>Date Final Stabilization was Reached. Final stabilization means that all soil disturbing activities at the site have been completed, no rills or gullies are present on site, all temporary BMPs (i.e. silt fence, silt basin have been removed, and that a uniform perennial vegetative cover with a density of 70% covers all of the disturbed site, or equivalent stabilization measures have been placed.</p>							
COESCO Permit #		IDNR NPDES Permit Authorization #, if applicable					
<b>Eligibility for Termination of COESCO Permit (Check all that Apply)</b>							
<p>The site has reached final stabilization. All exposed soil has been permanently stabilized, all temporary BMPs have been removed, and all stormwater discharges associated with construction activities have been eliminated.</p>							
<p>All portions of the site, which have undergone final stabilization have been sold and/or transferred, and the Permittee no longer has operational control of construction activities on the site. If termination is being sought because the site, or a portion thereof, has been sold or transferred, a copy of the Notice of Transfer sent to the Iowa DNR must accompany this form.</p>							
<b>Applicant and Permittee Certification</b>							
<p>By signing, applicant certifies under penalty of law that all stormwater discharges associated with construction activities previously authorized at the identified site have been eliminated, or that the applicant is no longer the permittee for this site. It is understood that by submitting this Notice of Termination, the permittee is no longer authorized to discharge previously authorized stormwater associated with construction activities, and that discharging pollutants in Stormwater to waters of the United States of American is unlawful under the Clean Water Act where the discharge is not authorized by a National Pollution Discharge and Elimination System permit. It is also understood that the submittal of this Notice of Termination does not release the permittee from liability for any violations of the previously issued permit or the Clean Water Act.</p>
